RE: Narcotics Disposal

In accordance with the Fiscal Year 2014-15 Annual Audit Plan, I participated in the Police Department's narcotics disposal process with Evidence Technicians, Dawn Bayless and Angie Keller.

My involvement consisted of verifying that all narcotics transferred from the evidence container to the destruction container were in fact destroyed in the Kenton County Animal Services incinerator. The Evidence Technicians were responsible for the actual destruction of the narcotics and updating the property disposition section of the Evidence Management System.

On December 3, 2014, the Covington Police Department destroyed 318 individual packages of narcotics and narcotics paraphernalia. The 318 packages represent evidence for 183 criminal cases from 2004 through 2014 that have been released for destruction.

Having an independent verification of the narcotics disposal process significantly strengthens the controls of the process and should protect Police Department personnel from potential fabricated complaints with respect to this high risk activity.

This was my first participation with the narcotics disposal process and thought it went extremely well. I would like to thank the Covington Police Department for their cooperation and professionalism implementing and completing this process.
