

NOTICE TO ALL POTENTIAL RESPONDENTS

This addendum details Vendor questions and answers in the City of Covington’s recently issued RFP, titled, **Purchase of Ambulances, FY20**. This addendum is released on August 12th, 2019 and officially clarifies certain portions of the above referenced RFP. Additional details are listed below.

VENDOR QUESTIONS & ANSWERS

Q. Is Covington still using engine turn gold or just reflective gold for the lettering?

A. Per the bid documents lettering and striping should match the current fleet. With the exception of ‘Item 6.160 Reflective Stripping – Rear Chevron Markings,’ there are no particulars specified regarding the brand of material to be used, only that the lettering & striping should match current fleet in look, layout and reflectivity.

The City’s current ambulance fleet maintains a mix of colored lettering, the City does not have a preference on the above, as either gold color will be sufficient, as long as it is utilized consistently throughout the product.

To further clarify the graphics, we’ve included attached photos of three of our units (see attached). In the attached photos you will notice that the lettering is gold with a black shadow, and a reflective swirl pattern. The ‘Stars of Life’ are reflective, and the reflective white stripe is NFPA compliant 6” total width running the length of the vehicle.
